PROFILE

I am a Junior Software Tester with a strong educational foundation, having completed the Software Testing Track at the Information Technology Institute (ITI) and holding a Bachelor's degree in Computer and Information Science from Ain Shams University. With a commitment to ensuring software products meet the highest quality standards and satisfy user and stakeholder requirements, I am skilled in a wide array of testing methodologies

My experience includes:

- **Manual Testing:** Proficient in executing test cases, identifying bugs, and ensuring software functionality aligns with specifications.
- **API Testing:** Experience with testing RESTful APIs using tools like Postman, Rest Assured ensuring the reliability, functionality, and security of APIs.

I am highly detail-oriented and dedicated to continuous learning and improvement, always seeking ways to optimize testing processes and contribute to delivering high-quality software.

EDUCATION

Software Testing -Information Technology Institute(ITI),Ministry of Communications and Information Technology 02/2023 – 08/2023
Trello API Project using postman (ITI)

Bachelor of Computer Science,Faculty of Computer and Information Science,Ain Shams University 06/2022
Artificial Intelligence for Mortality Prediction in Intensive Care Unit (Using Machine Learning & Deep Learning Models as CNN, RNN and RAIM to overcome the challenges of score-based models). Graduation project

PROFESSIONAL EXPERIENCE

Quality Control Engineer - Advanced Group For Information Technology(AGI) 03/2024 – present

I work in Manual and API Testing for an Assessment Management System company that provides specialized software solutions for assessments, including Gourmet and Electronic Correction Software (Iscore). In my role: Manual Testing for Gourmet: I ensure that the user interface and overall experience meet high-quality standards by rigorously testing functionality and usability. This helps guarantee that the platform is intuitive, robust, and aligned with user expectations. API Testing for Gourmet: Utilizing Postman, I conduct comprehensive API tests to validate secure data exchanges, seamless integrations, and efficient performance across the system. My proactive collaboration with cross-functional teams enables early detection and resolution of issues, contributing to a smoother development lifecycle and continuous improvement in our testing processes.

Software Testing Intern - ITWORK EDUCATION

12/2023 – 03/2024

I worked on systems like Emirates Schools Establishment and WinjiGo, employing both manual and API testing to ensure robust integration and optimal performance. Using industry-leading tools like Postman and Rest Assured, I verify secure data exchanges and seamless system communication, which drives early issue detection and resolution. My comprehensive testing approach not only guarantees a high-quality user experience but also enhances overall operational excellence and system reliability.
Do Manual Testing for ESE, UI/UX Testing And API Testing For WinjiGo.

TECHNICAL SKILLS

Software Development Life Cycle (SDLC)

understanding of specific SDLC models, like Waterfall, Agile.

Exploratory Testing

Agile Software Development

Agile Testing

Familiar With Web Technologies

HTML, CSS, And JavaScript

Programming language

Java

Performance Testing - Jmeter

Familiar with Software Testing Tools

Trello, Jira, Azure DevOps

Knowledge of Software Testing Methodologies

Write Test Cases ,User Stories and Bug Reports

API Testing

postman-RestAssured

Test Automation Frameworks

Selenium web driver

Database Fundamental and SQL Queries

Mobile Testing

Security Testing

Burb Suite

PERSONAL SKILLS

Attention to Detail

Organized, Proactive, and Results Driven

Eagerness to Learn

Curiosity and Creativity

Excellent communication skills

Problem-Solving

Focus on the quality

Time management

LANGUAGES

• Arabic

• English

COURSES & CERTIFICATES

ISTQB® Certified Tester Foundation Level- CTFL

certificate code is (230823073)

08/2023

Effective Test Case and Bug Report Writing Techniques - Mahara-Tech

Manual Testing Course - QA-Cart

Postman Course-QA-Cart

RestAssured Course - QA-Cart

Testcase And Bug Report - Work Shop

API Testing Using Rest Assured Test Automation Tool - Coursera

Postman Automation project - QA-Cart
